I made this in ten days' time in an oil investment in Texas. Others did as well. Many made from \$50,000 to \$500,000, but invested more capital to get these results.

Sour Lake, Sarntowa and Dayton prairie are just developing. Buy one to five acres either place. May make you rich. One-acre tracts Dayton Prairie, \$100 to \$500 each, from six hundred to twenty-five hundred feet of where wall is being drilled. They will get oil. Land on Spindle Top worth \$100,000.00 an acre.

REPUBLIC SPECIAL.

New York, April 3.—The curb market to-day opened firm in tone, but with very quiet deslings. The initial trades were made in only a few issues and were mostly in small lots. The later market developed some irregularity, due to realizing and some liquidation. Dealings were also considerably broader than in the early session, but the animation was snasmodic. The close was quiet and showed a firm tone in spite of irregular changes for the day in final quotations. Total transactions were estimated as about 5.000 shares.

Northern securities was an active feature of the session and showed some weakness in the morning. It sold at 101% and than dropped to 109%, but later recovered to 101% and in the afternoon sold at 102. In all about 2.500 shares changed hands. San Francisco Traction proferred sold at 62% for 100 shares and about 40,000 of the session and showed some weakness. On the session and showed some weakness in the morning. Tractions Regain Losses at the Afternoon Session.

Fairly active trading resulted in few changes in the quotations on local recuri-ties yesterday. There was the same sort of selling pressure which has acted as a damper on speculative enthusiasm all week. At the morning session values were decidedly off and slight gains in the afternoon were not sufficient to carry prices above

were not sufficient to carry prices above those recorded Wednesday.

Tractions led on the downturn, with sales of Transit from \$31 to \$50.75. United Rallways preferred was neglected, and the 4-per-cent bonos were on the dowaturn at \$82.24 and \$82.172. Colonial Trust, under heavy selling pressure, dropped from a22.50 6 \$22.25. Alissouri Trust was weak at \$27.50. and Germania barely steady at \$250.50. American Central Trust under the impetus of good buying advanced from \$10.25 to \$171.50.

Al the afternoon session there was a better feeling. Transit advanced to \$31, and United Railways preferred was well taken at \$84.75. The 4-per-cent honds were again easy at \$89.125. After seeiing at \$10.25 and Colonial found buvers at \$25.00 and \$22.75. Commonwealth Trust was in good demand. Union Trust at \$464 was one of the strong spois.

BEAR DAY IN CHICAGO FOR ALL THE GRAIN FUTURES.

PREVIOUS BULGE CONSID-ERED MORE THAN ENOUGH.

Crowd That Deals in July Corn Suddenly Shifts Operations to September.

Chicago, April 2.-This was another bear day on the Board of Trade. Wheat had plenty of bullish news, but the sentiment prevailed that yesterday's bulge was more than conditions warranted, and the late bearish crop news sent prices downward until May wheat closed %c lower, May corn 5/4/24c down and May outs unchanged. Pro-visions also had a setback and closed 100 to 2714c lower.

Whent.

Wheat.

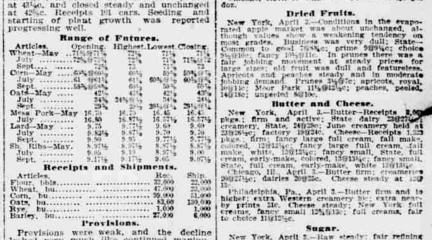

Trade in wheat dragged much of the time, and only once showed any snap. Foreign markets were slightly up, but disappointed the bulls in their unresponsive character. Much of the early crop news was bearish and showed its effect on opening prices. Opposed to these factors were the very good cash demand by millers something like 20,600 but of No. 1 Northern being solutional reports of probably reduced stocks at Duluth and Minneapolis. There was a semioficial report that the shortage in Oklahoma and Kansas would be 25,000,000 but because of the crop damage. May started \$2 to \$5 to lower at 719,6715c and worked up to 725c on the bull news, but there was no force to the market. Offerings were liberal, outside markets dragging badly, and then came the report of a statistical concern that, allowing about three-quarters of last year's production for Kansas and Ohio, the six principal winter-wheat States would raise as cars more are due later in the week. The demand from all outcrease and market are already was guite good, and market are already was a semiorited and the support of the statistical concern that, allowing about three-quarters of last year's production for Kansas and Ohio, the six principal winter-wheat States would raise as an already was a semiorited and the statistical concern that, allowing about three-quarters of last year's production for Kansas and Ohio, the six principal winter-wheat States would raise as a semiorited and the statistical content that the shortage of the crop damage. markets dragging badly, and then came the report of a statistical concern that, allowing about three-quarters of last year's production for Kansus and Ohio, the six principal winter-wheat States would raise as much wheat as last year. An already weak wheat market, this had a siumping effect, and May slid down to a weak close, is lower at Thic. Receipts 40 cars, none contract. Minneapolis and Duluth reported 134, a total for the three points of 274, against 255 last week and 355 a year ago, Primary receipts were only 299,000 bu. Compared with \$22,000 bu. The Sea clearances equaled 155,000 bu. The Sea board reported 50 loads taken for export.

There were new tactics in the corn pit to-day that set the crowd guessing again. Prices started out at small declines because of the indifference of the foreign cables. Saddenly, the prominent bull crowd that has been active in July options began to sell off at delivery and bought 2,00,000 bu. The sea College of the crowd began to tail in. The nearer deliveries suffered in consequence, and, until the crowd again, and wheat exerted a weakening influence. Wheat was reported favorable for the crop. Aside from the incident in Sept. the corn market was sinck, with a tendency toward the selling side. May sold between 6542 cots of the demand, that delivery ensed of the crop. Aside from the incident in Sept. the corn market was sinck, with a tendency toward the selling side. May sold between 6542 cots, and closed weak \$4,054 clower, at 155, 47555c. Receipts, 104 cars.

Oats showed independent strength for a time to-day on burning of May that led to the transmitted of the receipts and consequence are and weakening influence. Oats showed independent strength for a time to-day on buying of May that led to the helief that a movement in the cash cereal was at hand. The market, however, was very dull, and aside from the May strength, there was no feature. May sold at 43%c, and closed steady and unchanged at 42%c. Receipts 191 cars. Seeding and starting of plant growth was reported progressing well.

Frevisions.

Previsions were weak, and the decline locked very much like continued manipulation at the hands of the packers. The hog market was weaker and the small decrease in lard stocks induced selling of that product. Pork however, was the bone of contention, and packers and other longs took profits and threw stuff over so quickly that many shorts who had recently run to cover did not have a chance to put out again the property they had bought under pressure. May pork closed 274c lower at 516.45. May hard 20c down at 23.69 and May ribs 19c off at 38.575.

Estimated receipts to morrow: Wheat, 25 cars; corn. 80; oats, 75; hogs, 20.000 head.
